Mash-ka-wisen Treatment Center

## WHO WE SERVE

Native American men and women and others whom are connected to the community. Persons who are in need of high intensity residential treatment services for substance use disorder and are 18 years and older.

Mash-ka-wisen Family Program is supported by a MN Department of Human Services grant.

## WHY CHOOSE MIPRTC, INC?

We are the first Native American owned and operated treatment center in the country. Our goal is to promote positive cultural identity and wellness by helping clients connect to their Anishinabe language, teachings, and traditions for healing on a daily basis. We have two cultural specialists and other respected community Native American practitioners facilitating cultural services and promoting "Culture is prevention, intervention, and recovery" as well as "Family is culture". Engaging in one's culture allows answers to some of life's bigger questions as to what needs to stay and what needs to change. This empowerment through identity is a contributor to breaking the cycle of addiction and looking towards the future as to what clients want for themselves and their children. Family programming allows families to come in and be a part of client's programming. For families traveling distances, we offer gas vouchers and hotel rooms.
